

ITALIAN CITIZENSHIP SERVICES

Why We Don't Offer 'All-Inclusive' Services

The pursuit of Italian citizenship is a journey of reconnection with one's origins. Our service simplifies the Italian portion of the process, ensuring legal integrity and utmost rigor. Understand below why your participation in collecting the American documents is crucial.

We will locate and request a certified copy of the Italian birth certificate for you, and everything that needs to be done in Italy will be held by us, but the American documents need to be provided by you (we will assist in every step, of course). We understand that the process of collecting the American documents yourself, even with full assistance, seems overwhelming. However, it is important to emphasize that we do not collect or process American documents on behalf of our clients, as each case is unique and processing times vary significantly from one U.S. state to another. If we were to handle this part of the process ourselves, it would be difficult to justify the delays — especially those caused by agencies like the U.S. Department of State.

We kindly ask for your understanding that some agencies promising all-inclusive and expedited services may resort to questionable or even illegal practices, such as the use of falsified documents or improper arrangements with public officials. If discovered, such actions can lead to the revocation of Italian citizenship.

Moreover, we firmly believe that being involved in this process fosters a deeper connection with the Italian roots and personal heritage. After all, citizenship is not just a legal status — it is also a meaningful part of your identity. Lastly, please note that no one can lawfully alter the competent court or the judge assigned to your case. Our firm is committed to working with the highest standards of integrity, within the bounds of the law, and always in your best long-term interest.
